F. No. AICTE/P&AP/Misc/2023/

Dated: 01.02.2023

**CIRCULAR**

To

**All Vice Chancellors of Technical Universities and  
All Directors/ Principals of AICTE Approved Institutions,**

**Subject: Promotion of R&D on Dam Safety.**

Sir/Madam,

Hydrological Assessment, Comprehensive Dam Safety Evaluation, Seismic Safety Evaluation, Risk Analysis, Dam Break Analysis and Preparation of Emergency Action Plan, Numerical Analysis, Advances in Dam Health Monitoring, Instrumentation Data Analysis, Hazard & Vulnerability Assessment etc. are essentially required as part of implementation of the Dam Safety Act 2021.

Ministry of Jal Shakti, Govt. of India is emphasizing on the capacity building of manpower associated with the dams with the objective to make them well equipped to implement the provisions of the Dam Safety Management.

The premier academic institutions (IITs/NITs/other centers) which are under the administrative control of the Ministry of Jal Shakti have sought co-operation from technical institutions/universities that are willing to work, research and provide the dam safety services on the above mentioned thematic areas related to dam safety.

Ministry of Jal Shakti will also take up the institutional capacity building of these selected institutes in dam safety by providing central assistance in this regard. In the long run, with the active involvement of the academic and central institutions, domain expertise in dam safety management will be available within the country, which will give right impetus to the Govt. of India Mission “**Atmannirbhar Bharat**” and will also provide a window of opportunity for disseminating knowledge and expertise in this area to many underdeveloped and developing nations in future.

Institutions, which are willing to work, research and provide the dam safety services are required to fill this <https://tinyurl.com/mrxatmyp> form by 15<sup>th</sup> February 2023.

Regards

(Dr. Ramesh Unnikrishnan)

Advisor-II
