Study on Best work done at the village level to combat COVID-19 & Suggestive measures to accelerate and sustain growth of economy

Dear Principal / Director,

Greetings from All India Council for Technical Education...!

To combat the COVID-19 Pandemic faced by the nation, Govt. of India has taken large number of measures like Lockdown, large scale testing of citizens, infusing funds to boost the economy, provide incentives to various sectors, promoting digital transactions, e-learning, etc.

In this regard Hon'ble Minister for Human Resources Development, GoI has desired that Universities / Institutions should undertake a study of the following issues:

- i. The best works done regarding response COVID-19 by 5-6 adjoining villages / villages adopted by the University / Institute;
- ii. How the above villages have withstood the various challenges posed by COVID-19;
- iii. How India handled the 1918 Pandemic (H1N1 Virus) – Spanish Flu (Influenza) and what measures were taken to boost the Indian economy after the Pandemic.

Further, the Institutes are also requested to suggest measures to accelerate and sustain growth of economy in various sectors like Agriculture, Technology, IT, Medicine, Online & Digital Education Methodology, e-Business etc, and as to how the Institutes can actively participate in these activities by providing apps, digital solutions, start-up ventures, development of new machines etc.

It is requested that the study may be completed and the report along with the suggested measures should be emailed to AICTE at suggestion@aicte-india.org by 15th May 2020.

With regards,
Chairman, AICTE
